A guide to publishing in scholarly journals

Authors' rights and responsibilities

At Elsevier, we're dedicated to protecting your rights as an author, and ensuring that any and all legal information and copyright regulations are addressed.

Whether an author is published with Elsevier or any other publisher, we hold ourselves and our colleagues to the highest standards of ethics, responsibility and legal obligation.

Authors' rights

As a journal author, you retain rights for a large range of author uses of your article, including use by your employing institute or company. These rights are retained and permitted without the need to obtain specific permission from Elsevier. These include:

- **Teaching:** Authors may make print or electronic copies of the article for use in classroom teaching or for his or her personal use.
- **Educational material:** An article can be made available to the author's institution or company e-course packs or company training.
- **Scholarly sharing:** Copies of the article can be shared with research colleagues.
- **Meetings and conferences:** Articles can be presented and copies made for attendees.
- **Further works:** Articles can be used in compilations, expanded to book form or used in theses or dissertations.
- **Patent and trademark rights:** The right to use the article for any inventions disclosed or products identified.
- **Websites:** Authors may post a pre-print version of the article online on websites and a revised version on institutional or personal websites, incorporating a link to the Digital Object Identifier (DOI) of the article.
