

CALL FOR FAST TRACK PROPOSALS

Pervasive and Mobile Computing (PMC) Journal

<http://www.elsevier.com/locate/pmc>

The Pervasive and Mobile Computing (PMC) Journal is a professional, peer-reviewed journal publishing high-quality scientific articles in the pervasive/ubiquitous-computing field. For details on the aims and scope of the journal, please visit the URL: <http://www.elsevier.com/locate/pmc>.

The Editorial Board of Pervasive and Mobile Computing (PMC) Journal invites the organizers of high-quality conferences/workshops in the pervasive/mobile computing field to submit proposals for fast track publication in the PMC Journal of (extended version of) the highest quality papers presented at their conferences/workshops.

The purpose of a Fast Track is to provide a channel to guarantee fast publication of extended versions of the high-quality conference/workshop papers in the Pervasive and Mobile Computing (PMC) Journal.

Manuscripts submitted for the Fast Track should report on original research, must contain at least 30% of new material compared to the conference/workshop paper, and should not be under consideration for publication by any other journal.

The Fast Track guest editors (usually conference/workshop program chairs) will be in charge of managing the review process of the papers submitted to the Fast Track and making recommendations on the Fast Track papers to the journal Editor for Fast Tracks.

The papers submission and revision process of Fast Track papers will be managed through the Elsevier journal electronic system.

Fast Track proposals should be submitted to the Editor for Fast Track, Marco Conti Marco.Conti@iit.cnr.it. Please submit your proposal by e-mail (pdf or text format) with "PMC Fast Track Proposal" in the subject. Each Fast Track proposal should include:

1. The name of the conference/workshop, and the URL of the event.
2. A brief description of the technical issues that the conference/workshop addresses, highlighting the relevance for the PMC journal.
3. A brief description of the event, including: number of submitted and accepted papers, and number of attendees. If you do not yet have these numbers, please refer to previous events. First time conference/workshops, please report your estimated figures.
4. Short bio(s) of the Fast Track guest editor(s).
