

We are pleased to announce that, in July 2009, David Begun will be joining us as a third editor of the *Journal of Human Evolution*. All new submissions should be directed via our online system either to Steve Leigh or David Begun. Susan Antón will not handle any new manuscripts, but will continue to be responsible for all manuscripts that have already been submitted to her. At the end of June 2010, Susan will be stepping down as one of the editors of the journal and will be handing her responsibilities to David Begun.

Steve Leigh  
Susan Antón
