

Ocean Modelling is pleased to announce a special issue dedicated to the life and contributions of Peter Killworth. Until early 2008, *Ocean Modelling* was largely shaped, led and edited by Peter, its Founding Editor, who passed away on 28 January 2008.

We invite papers, including reviews, which focus on areas of research that are related to Peter's interests and contributions to oceanography. While that can include all areas of ocean circulation, his recent interests covered

- Eddy parameterizations
- Planetary waves
- Propagating features
- Effects of topography
- Unstructured grid ocean models

Normal editorial processes will apply.
Paper submission date: June 30 2009.
Publishing Date: Late -2009.

We look forward to seeing your submissions,

With best regards

Will Perrie, Stephen Griffies, Robert Hallberg, Emmanuel Hanert, Andreas Oschlies, Anne-Marie Treguier
Editors for *Ocean Modelling*
