Tutzing on Lake Starnberg, July 8 –10, 2009

The Osteuropa-Institut Regensburg (OEI) is a regional studies center at the University of Regensburg focussing on emerging east European economies in a global perspective.

Situated south of Munich on Lake Starnberg, the Akademie für Politische Bildung Tutzing (APB, Academy for Civic Education) has a reputation for organizing conferences and workshops in various fields of the social sciences.

In order to foster the exchange of ideas and networking among scholars, the OEI and the APB launch a series of annual summer academies.

The 2009 OEI/APB Summer Academy on Central and Eastern Europe aims to bring together researchers (PhD students or more advanced) who specialize in the area of monetary policy in a workshop atmosphere. Participants will present an ongoing or recently concluded research project. After each presentation there will be an opportunity to discuss the work. In addition, two keynote lectures are presented. This format should be especially interesting for PhD students and post-docs. More senior researchers, however, are also welcome to participate. In order to ensure an intensive discussion, the number of participants is limited to 15. The conference language is English.
