

OPHTHALMOLOGY

CORRESPONDING AUTHOR DECLARATION FORM

(The corresponding author must answer each of the following questions, sign form and upload with submission.)

1. Authorship criteria forms

I have received authorship criteria forms from all authors and all meet authorship criteria. I will send the forms to the journal if requested by the editorial office.

2. Guest/Ghost Authorship

Based on the definition of "guest authorship" as the designation of an individual who does not meet authorship criteria and "ghost authorship" as the failure to designate an individual who has made a substantial contribution to the research or writing of a manuscript (see the paper in JAMA. 2008;299(15):1800-12.), please check one of the following boxes:

There are no authors other than those listed on the title page of this manuscript

There is a guest author(s) who is not listed as an author. We have recognized that contribution in our acknowledgment section and have their permission to do so. A letter or e-mail confirming this acknowledgement is included with our submission.

There is/are ghost writer(s) and I have discussed this with the Editor prior to submission as outlined in the cover letter. The Editor will advise us how this must be disclosed. If we are not willing to disclose this in a manner satisfactory to the Editor we agree to withdraw the manuscript.

3. Financial Disclosure

Each author has provided me with a financial disclosure form and all the forms are uploaded with our submission.

None of the authors have any proprietary/financial interest to disclose and I have so stated on the cover page of the manuscript.

Listed below are the proprietary/financial interests relating to this manuscript and I have so stated on the cover page of the manuscripts

Name	Organization	Code
_____	_____	_____
_____	_____	_____
_____	_____	_____

(use additional pages if necessary)

4. Public Access

The underlying research reported in the article was funded by the US National Institutes of Health.

Articles accepted for publication in *Ophthalmology* from authors who have indicated that the underlying research reported in their articles was supported by an NIH grant will be sent by Elsevier to Pub Med Central for public access 12 months after final publication. The version of the article provide by Elsevier is the final accepted version after peer-review but without copyediting.

Underlying research reported in the article was NOT funded by US National Institutes of Health
