●	<b>Guide for Authors</b>	<b>p.4</b>

ISSN: 0090-8258

### DESCRIPTION

---

*Gynecologic Oncology*, an international journal, is devoted to the publication of clinical and investigative articles that concern **tumors** of the **female reproductive tract**. Investigations relating to the etiology, diagnosis, and treatment of female cancers, as well as research from any of the disciplines related to this field of interest, are published.

Research Areas Include:

- **Cell and molecular biology**
- **Chemotherapy**
- **Cytology**
- **Endocrinology**
- **Epidemiology**
- **Genetics**
- **Gynecologic surgery**
- **Immunology**
- **Pathology**
- **Radiotherapy**

#### **Benefits to authors**

We also provide many author benefits, such as free PDFs, a liberal copyright policy, special discounts on Elsevier publications and much more. Please click here for more information on our [author services](#).

Please see our [Guide for Authors](#) for information on article submission. If you require any further information or help, please visit our support pages: <http://support.elsevier.com>

## EDITORIAL BOARD

---

### *Editor-in-Chief*

**Beth Y. Karlan, MD**, Director, Women's Cancer Program at the Samuel Oschin Cancer Institute, Los Angeles, CA, USA

### *Deputy Editors*

**Robert E. Bristow, MBA, MD**, Orange, California, USA  
**David E. Cohn, MD**, Columbus, Ohio, USA  
**Barbara A. Goff, MD**, Seattle, Washington, USA  
**Laurel W. Rice, MD**, Madison, Wisconsin, USA  
**Stephen C. Rubin, MD**, Philadelphia, Pennsylvania, USA  
**Anil K. Sood, MD**, Houston, Texas, USA

### *Statistical Consultant*

**Chi-Hong Tseng, PhD**, Los Angeles, CA, USA

### *Editorial Board*

**Giovanni Aletti, MD**, Milano, Italy  
**Jan Baak, MD, PhD**, Stravanger, Norway  
**Pablo Conesa-Zamora, PhD**, Cartagena, Spain  
**Ben Davidson, MD, PhD**, Oslo, Norway  
**Diederick de Jong, BM, BCh, PhD**, Oxford, UK  
**Sean Dowdy, MD**, Rochester, MN, USA  
**Ronny Drapkin, MD, PhD**, Boston, MA, USA  
**Andreas du Bois, MD, PhD**, Essen, Germany  
**Linda Duska, MD**, Charlottesville, VA, USA  
**Lorraine Elit, MD, MSc, FRCS(C)**, Hamilton, ON, Canada  
**John Farley, MD, COL(ret), FACOG, FACS**, Phoenix, AZ, USA  
**Ami Fishman, MD**, Tel-Aviv, Israel  
**Gini Fleming, MD**, Chicago, IL, USA  
**Keiichi Fujiwara, MD, PhD**, Saitama, Japan  
**Hani Gabra, PhD, FRCPE, FRCP**, London, UK  
**David Gaffney, MD, PhD**, Salt Lake City, UT, USA  
**Diane Harper, MD**, Hanover, NH, USA  
**Laura Havrilesky, MD**, Durham, NC, USA  
**Warner Huh, MD**, Birmingham, AL, USA  
**Amir Jazaeri, MD**, Charlottesville, VA, USA  
**Vesna Kesic**, Beograd, Serbia  
**Young Tae Kim, MD, PhD**, Seoul, Republic of Korea  
**Thomas Krivak, MD**, Pittsburgh, PA, USA  
**Hung-Huey Lai, MD**, Taoyuan, Taiwan, ROC  
**Hung-Cheng Lai, MD, PhD**, Taipei, Taiwan, ROC  
**Charles Landen, MD**, Birmingham, AL, USA  
**Ernst Lengyel, MD, PhD**, Chicago, IL, USA  
**Douglas A. Levine, MD**, New York, NY, USA  
**Andrew Li, MD**, Los Angeles, CA, USA  
**Maurie Markman, MD**, Philadelphia, PA, USA  
**Daniela Matei, MD**, Indianapolis, IN, USA  
**Ursula Matulonis, MD**, Boston, MA, USA  
**Susan Modesitt**, Charlottesville, Virginia, USA  
**Bradley J. Monk, MD**, Phoenix, AZ, USA  
**Raj Naik**, Gateshead, England, UK  
**Amanda Nickles Fader, MD**, Baltimore, MD, USA  
**Pedro Ramirez, MD**, Houston, TX, USA  
**Hee-Sug Ryu, MD, PhD**, Suwon, South Korea

**John Schorge, MD**, Boston, MA, USA

**Alberto Selman**, Santiago, Chile

**Keng Shen**, Beijing, China

**Elizabeth Swisher, MD**, Seattle, WA, USA

**Akila Viswanathan**, Boston, Massachusetts, USA

**Vivian von Gruenigen, MD**, Northeast, OH, USA

***Founding Editor***

## GUIDE FOR AUTHORS

---

### INTRODUCTION

*Gynecologic Oncology*, an international journal, is devoted to the publication of clinical and investigative articles that concern tumors of the female reproductive tract. We welcome the submission of investigations relating to the etiology, diagnosis, treatment, and prevention of female cancers, as well as research from any of the disciplines related to this field of interest. Research areas include: cell and molecular biology, chemotherapy, clinical trials, epidemiology, genetics, immunology and vaccines, 'omics', pathology and cytology, quality of life, radiation therapy, surgery, and translational research. All aspects of scholarship related to tumors of this region are welcome, with originality, quality, and clarity the chief criteria of acceptance.

#### **Types of articles**

*Original Research Report*: Full-length report of an original basic or clinical investigation.

*Review Article*: A comprehensive and scholarly review of the literature relating to an important basic or clinical subject, accompanied by critical analysis and leading to reasonable conclusions.

*Editorial*: Commentary on an original article published in the same issue or an opinion or perspective on a specific topic.

*Clinical Commentary*: Offers perspective or opinion of clinical relevance.

*Surgical Films*: *Gynecologic Oncology* has begun accepting video submissions. Authors who have video or animation files that they wish to submit are strongly encouraged to adhere to the guidelines detailed below. All submitted files should be properly labeled so that they directly relate to the video file's content. In order to ensure that your video or animation material is directly usable, please provide the files in one of our recommended file formats with a preferred maximum size of 100 MB. Video and animation files supplied will be published online in the electronic version of your article in Elsevier Web products, including ScienceDirect: <http://www.sciencedirect.com>. Please supply 'stills' with your file: you can choose any frame from the video or animation or make a separate image. These will be used instead of standard icons and will personalize the link to your video data. For more detailed instructions please visit our video instruction pages at <http://www.elsevier.com/artworkinstructions>. Note: since video and animation cannot be embedded in the print version of the journal, please provide text for both the electronic and the print version for the portions of the article that refer to this content.

Please note that *Gynecologic Oncology* will no longer consider Letters to the Editor for publication. Correspondence, including letters which comment upon work published in *Gynecologic Oncology*, will be considered for publication in the journal's companion title, *Gynecologic Oncology Reports*. *Gynecologic Oncology Reports* is an open access journal and all correspondence which is accepted for publication will be published free of charge. More information about the journal can be found [here](#).

#### **Surgical Film publications**

The journal of *Gynecologic Oncology* now welcomes:

**Surgical Films** The maximum file size is **100 MB** (after conversion to mp4). Videos will be published in **mp4** format only. Formats accepted for conversion include: mpg, avi, mov, wma, wmv, swf, rm, fla. Please provide a video still image file as well. This is the placeholder online and in print. A still photograph (formatted as described for the video) must be included with your submission (it can be any frame from the video or may be a separate image) - this will be used as an "icon" for the video link. A 250 word structured abstract must accompany the video. Highlights (similar to that required for a manuscript) must be included with the video submission. The maximum number of authors is four. The maximum number of references that can accompany the video submission is four.

#### **Submission requirements**

Please see [here](#) for submission requirements.

#### **Guide for reviewers**

Please click [here](#) for specific reviewer instructions.

### BEFORE YOU BEGIN

#### **Ethics in publishing**

For information on Ethics in publishing and Ethical guidelines for journal publication see <http://www.elsevier.com/publishingethics> and <http://www.elsevier.com/journal-authors/ethics>.

### **Clinical trial guidelines**

We invite submission of all clinical trials, whether phase I, II, or III. For phase I trials, we especially encourage those of a novel substance for a novel indication, if there is a strong or unexpected beneficial or adverse response, or a novel mechanism of action. Systematic reviews of randomised trials also might warrant rapid peer review and publication. We encourage the registration of all interventional trials, whether early or late phase, in a primary register that participates in WHO's International Clinical Trial Registry Platform. We also encourage full public disclosure of the minimum 20-item trial registration dataset at the time of registration and before recruitment of the first participant (<http://www.who.int/ictrp/en/>). The registry must be independent of for-profit interest. Reports of randomised trials must conform to revised CONSORT guidelines, and should be submitted with their protocols. All reports of clinical trials must include a summary of previous research findings, and explain how this trial contributes to the sum of knowledge. The relation between existing and new evidence should be shown by direct reference to an existing systematic review and meta-analysis; if neither exists, authors are encouraged to do their own, or to describe the qualitative association between their research and previous findings.

- Cluster randomised trials must be reported according to CONSORT extended guidelines.
- Randomised trials that report harms must be described according to extended to extended CONSORT guidelines.
- Studies of diagnostic accuracy must be reported according to STARD guidelines.
- Systematic reviews must be written according to the Cochrane Collaboration guidelines.
- Observational studies (cohort, case-control, or cross-sectional designs) must be reported according to the STROBE statement.

### **Conflict of Interest**

All authors are requested to disclose any actual or potential conflict of interest including any financial, personal or other relationships with other people or organizations within two years of beginning the submitted work that could inappropriately influence, or be perceived to influence, their work. See also <http://www.elsevier.com/conflictsofinterest>.

All authors must complete the conflict of interest form developed by the International Committee of Medical Journal Editors, which may be found [here](#). The form is designed to be completed online and each and every author must complete a form. The conflict of interest form(s) must be uploaded to EES by the corresponding author with the manuscript.

If conflict of interest forms are not provided upon submission, your submission will be returned to you with a request that you provide forms for all authors. Your manuscript will not be considered for publication by editors or reviewers until all conflict of interest forms have been received. Please contact the Editorial Office at [GYN@elsevier.com](mailto:GYN@elsevier.com) if you have any difficulty completing the form.

### **Role of medical writer or editor**

If a medical writer or editor was involved in the creation of your manuscript, we need a signed statement from the corresponding author to include their name and information about funding of this person. This information should be added to the Acknowledgement section. We also require signed statements from any medical writers or editors declaring that they have given permission to be names as an author; or in the Acknowledgments section.

### **Submission declaration and verification**

Submission of an article implies that the work described has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis or as an electronic preprint, see <http://www.elsevier.com/postingpolicy>), that it is not under consideration for publication elsewhere, that its publication is approved by all authors and tacitly or explicitly by the responsible authorities where the work was carried out, and that, if accepted, it will not be published elsewhere in the same form, in English or in any other language, including electronically without the written consent of the copyright-holder. To verify originality, your article may be checked by the originality detection service CrossCheck <http://www.elsevier.com/editors/plagdetect>.

### **Changes to authorship**

This policy concerns the addition, deletion, or rearrangement of author names in the authorship of accepted manuscripts:

*Before the accepted manuscript is published in an online issue:* Requests to add or remove an author, or to rearrange the author names, must be sent to the Journal Manager from the corresponding author of the accepted manuscript and must include: (a) the reason the name should be added or removed,

or the author names rearranged and (b) written confirmation (e-mail, fax, letter) from all authors that they agree with the addition, removal or rearrangement. In the case of addition or removal of authors, this includes confirmation from the author being added or removed. Requests that are not sent by the corresponding author will be forwarded by the Journal Manager to the corresponding author, who must follow the procedure as described above. Note that: (1) Journal Managers will inform the Journal Editors of any such requests and (2) publication of the accepted manuscript in an online issue is suspended until authorship has been agreed.

*After the accepted manuscript is published in an online issue:* Any requests to add, delete, or rearrange author names in an article published in an online issue will follow the same policies as noted above and result in a corrigendum.

### **Article transfer service**

This journal is part of our Article Transfer Service. This means that if the Editor feels your article is more suitable in one of our other participating journals, then you may be asked to consider transferring the article to one of those. If you agree, your article will be transferred automatically on your behalf with no need to reformat. Please note that your article will be reviewed again by the new journal. More information about this can be found here: <http://www.elsevier.com/authors/article-transfer-service>.

### **Copyright**

This journal offers authors a choice in publishing their research: Open access and Subscription.

#### *For subscription articles*

Upon acceptance of an article, authors will be asked to complete a 'Journal Publishing Agreement' (for more information on this and copyright, see <http://www.elsevier.com/copyright>). An e-mail will be sent to the corresponding author confirming receipt of the manuscript together with a 'Journal Publishing Agreement' form or a link to the online version of this agreement.

Subscribers may reproduce tables of contents or prepare lists of articles including abstracts for internal circulation within their institutions. Permission of the Publisher is required for resale or distribution outside the institution and for all other derivative works, including compilations and translations (please consult <http://www.elsevier.com/permissions>). If excerpts from other copyrighted works are included, the author(s) must obtain written permission from the copyright owners and credit the source(s) in the article. Elsevier has preprinted forms for use by authors in these cases: please consult <http://www.elsevier.com/permissions>.

#### *For open access articles*

Upon acceptance of an article, authors will be asked to complete an 'Exclusive License Agreement' (for more information see <http://www.elsevier.com/OAauthoragreement>). Permitted reuse of open access articles is determined by the author's choice of user license (see <http://www.elsevier.com/openaccesslicenses>).

### **Retained author rights**

As an author you (or your employer or institution) retain certain rights. For more information on author rights for:

Subscription articles please see <http://www.elsevier.com/journal-authors/author-rights-and-responsibilities>.

Open access articles please see <http://www.elsevier.com/OAauthoragreement>.

### **Role of the funding source**

As an author you (or your employer or institution) retain certain rights; for details you are referred to: <http://www.elsevier.com/authorsrights>

You are requested to identify who provided financial support for the conduct of the research and/or preparation of the article and to briefly describe the role of the sponsor(s), if any, in study design; in the collection, analysis and interpretation of data; in the writing of the report; and in the decision to submit the paper for publication. If the funding source(s) had no such involvement then this should be stated. Please see <http://www.elsevier.com/funding>.

### **Funding body agreements and policies**

Elsevier has established agreements and developed policies to allow authors whose articles appear in journals published by Elsevier, to comply with potential manuscript archiving requirements as specified as conditions of their grant awards. To learn more about existing agreements and policies please visit <http://www.elsevier.com/fundingbodies>.

## Open access

This journal offers authors a choice in publishing their research:

### Open access

- Articles are freely available to both subscribers and the wider public with permitted reuse
- An open access publication fee is payable by authors or their research funder

### Subscription

- Articles are made available to subscribers as well as developing countries and patient groups through our access programs (<http://www.elsevier.com/access>)
- No open access publication fee

All articles published open access will be immediately and permanently free for everyone to read and download. Permitted reuse is defined by your choice of one of the following Creative Commons user licenses:

**Creative Commons Attribution (CC BY):** lets others distribute and copy the article, to create extracts, abstracts, and other revised versions, adaptations or derivative works of or from an article (such as a translation), to include in a collective work (such as an anthology), to text or data mine the article, even for commercial purposes, as long as they credit the author(s), do not represent the author as endorsing their adaptation of the article, and do not modify the article in such a way as to damage the author's honor or reputation.

**Creative Commons Attribution-NonCommercial-ShareAlike (CC BY-NC-SA):** for non-commercial purposes, lets others distribute and copy the article, to create extracts, abstracts and other revised versions, adaptations or derivative works of or from an article (such as a translation), to include in a collective work (such as an anthology), to text and data mine the article, as long as they credit the author(s), do not represent the author as endorsing their adaptation of the article, do not modify the article in such a way as to damage the author's honor or reputation, and license their new adaptations or creations under identical terms (CC BY-NC-SA).

**Creative Commons Attribution-NonCommercial-NoDerivs (CC BY-NC-ND):** for non-commercial purposes, lets others distribute and copy the article, and to include in a collective work (such as an anthology), as long as they credit the author(s) and provided they do not alter or modify the article.

To provide open access, this journal has a publication fee which needs to be met by the authors or their research funders for each article published open access.

Your publication choice will have no effect on the peer review process or acceptance of submitted articles.

The open access publication fee for this journal is **\$2200**, excluding taxes. Learn more about Elsevier's pricing policy: <http://www.elsevier.com/openaccesspricing>.

## Language services

Authors who require information about language editing and copyediting services pre- and post-submission please visit <http://www.elsevier.com/languagepolishing> or our customer support site at <http://epsupport.elsevier.com> for more information. Please write your text in good English (American or British usage is accepted, but not a mixture of these).

Please note Elsevier neither endorses nor takes responsibility for any products, goods or services offered by outside vendors through our services or in any advertising. For more information please refer to our Terms & Conditions: <http://www.elsevier.com/termsandconditions>

## Submission

Submission to this journal proceeds totally online. Use the following guidelines to prepare your article. Via the homepage of this journal (<http://www.elsevier.com/journals>) you will be guided stepwise through the creation and uploading of the various files. The system automatically converts source files to a single Adobe Acrobat PDF version of the article, which is used in the peer-review process. Please note that even though manuscript source files are converted to PDF at submission for the review process, these source files are needed for further processing after acceptance. All correspondence, including notification of the Editor's decision and requests for revision, takes place by e-mail and via the author's homepage, removing the need for a hard-copy paper trail.

It is a condition of publication that all manuscripts must be written in clear, grammatical English and be submitted to the *Gynecologic Oncology* Web site at <http://ees.elsevier.com/ygyno>. Authors are requested to transmit the text and art of the manuscript in electronic form to this address. Each manuscript must also be accompanied by a cover letter. (Please see Preparation of Manuscript below.) If you are unable to provide an electronic version, please contact the editorial office prior to submission by e-mail ([gyn@elsevier.com](mailto:gyn@elsevier.com)), telephone +1 619 699 6767, or fax +1 (619) 699 6211.

Manuscripts are accepted for review with the understanding that no substantial portion of the study has been published or is under consideration for publication elsewhere and that its submission for publication has been approved by all of the authors and by the institution where the work was carried out. Authors must disclose prior presentation at a public scientific meeting as a footnote on the title page.

Manuscripts that do not meet the general criteria or standards for publication in *Gynecologic Oncology* will be immediately returned to the authors, without detailed review.

## CHECKLIST FOR AUTHORS

Please follow this link for a detailed list of the submission requirements and how to structure your article: [Check List for Authors](#)

### Essential title page information

Please follow this link for a detailed list of the submission requirements and how to structure your article: [Check List for Authors](#)

- **Title.** Concise and informative. Titles are often used in information-retrieval systems. Avoid abbreviations and formulae where possible.
- **Author names and affiliations.** Where the family name may be ambiguous (e.g., a double name), please indicate this clearly. Present the authors' affiliation addresses (where the actual work was done) below the names. Indicate all affiliations with a lower-case superscript letter immediately after the author's name and in front of the appropriate address. Provide the full postal address of each affiliation, including the country name, and, if available, the e-mail address of each author.
- **Corresponding author.** Clearly indicate who will handle correspondence at all stages of refereeing and publication, also post-publication. **Ensure that telephone and fax numbers (with country and area code) are provided in addition to the e-mail address and the complete postal address.**
- **Present/permanent address.** If an author has moved since the work described in the article was done, or was visiting at the time, a "Present address" (or "Permanent address") may be indicated as a footnote to that author's name. The address at which the author actually did the work must be retained as the main, affiliation address. Superscript Arabic numerals are used for such footnotes.

### Graphical abstract

Although a graphical abstract is optional, its use is encouraged as it draws more attention to the online article. The graphical abstract should summarize the contents of the article in a concise, pictorial form designed to capture the attention of a wide readership. Graphical abstracts should be submitted as a separate file in the online submission system. Image size: Please provide an image with a minimum of 531 × 1328 pixels (h × w) or proportionally more. The image should be readable at a size of 5 × 13 cm using a regular screen resolution of 96 dpi. Preferred file types: TIFF, EPS, PDF or MS Office files. See <http://www.elsevier.com/graphicalabstracts> for examples.

Authors can make use of Elsevier's Illustration and Enhancement service to ensure the best presentation of their images and in accordance with all technical requirements: [Illustration Service](#).

### Database linking

Elsevier encourages authors to connect articles with external databases, giving their readers one-click access to relevant databases that help to build a better understanding of the described research. Please refer to relevant database identifiers using the following format in your article: Database: xxxx (e.g., TAIR: AT1G01020; CCDC: 734053; PDB: 1XFN). See <http://www.elsevier.com/databaselinking> for more information and a full list of supported databases.

### Artwork

#### Electronic artwork

Please follow this link for a detailed list of the submission requirements and how to structure your article: [Check List for Authors](#)

### *General points*

- Make sure you use uniform lettering and sizing of your original artwork.
- Save text in illustrations as "graphics" or enclose the font.
- Only use the following fonts in your illustrations: Arial, Courier, Times, Symbol.
- Number the illustrations according to their sequence in the text.
- Use a logical naming convention for your artwork files.
- Provide captions to illustrations separately.
- Produce images near to the desired size of the printed version.
- Submit each figure as a separate file.

A detailed guide on electronic artwork is available on our website:

<http://www.elsevier.com/artworkinstructions>

**You are urged to visit this site; some excerpts from the detailed information are given here.**

### *Formats*

Regardless of the application used, when your electronic artwork is finalised, please "save as" or convert the images to one of the following formats (note the resolution requirements for line drawings, halftones, and line/halftone combinations given below):

EPS: Vector drawings. Embed the font or save the text as "graphics".

TIFF: color or grayscale photographs (halftones): always use a minimum of 300 dpi.

TIFF: Bitmapped line drawings: use a minimum of 1000 dpi.

TIFF: Combinations bitmapped line/half-tone (color or grayscale): a minimum of 500 dpi is required.  
DOC, XLS or PPT: If your electronic artwork is created in any of these Microsoft Office applications please supply "as is".

#### **Please do not:**

- Supply embedded graphics in your wordprocessor (spreadsheet, presentation) document;
- Supply files that are optimised for screen use (like GIF, BMP, PICT, WPG); the resolution is too low;
- Supply files that are too low in resolution;
- Submit graphics that are disproportionately large for the content.

### *Reference links*

Increased discoverability of research and high quality peer review are ensured by online links to the sources cited. In order to allow us to create links to abstracting and indexing services, such as Scopus, CrossRef and PubMed, please ensure that data provided in the references are correct. Please note that incorrect surnames, journal/book titles, publication year and pagination may prevent link creation. When copying references, please be careful as they may already contain errors. Use of the DOI is encouraged.

### *Reference formatting*

There are no strict requirements on reference formatting at submission. References can be in any style or format as long as the style is consistent. Where applicable, author(s) name(s), journal title/book title, chapter title/article title, year of publication, volume number/book chapter and the pagination must be present. Use of DOI is highly encouraged. The reference style used by the journal will be applied to the accepted article by Elsevier at the proof stage. Note that missing data will be highlighted at proof stage for the author to correct. If you do wish to format the references yourself they should be arranged according to the following examples:

#### *Reference style*

*Text:* Indicate references by number(s) in square brackets in line with the text. The actual authors can be referred to, but the reference number(s) must always be given.

*List:* Number the references (numbers in square brackets) in the list in the order in which they appear in the text.

#### *Examples:*

Reference to a journal publication:

[1] Van der Geer J, Hanraads JA, Lupton RA. The art of writing a scientific article. *J Sci Commun* 2010;163:51–9.

Reference to a book:

[2] Strunk Jr W, White EB. *The elements of style*. 4th ed. New York: Longman; 2000.

Reference to a chapter in an edited book:

[3] Mettam GR, Adams LB. How to prepare an electronic version of your article. In: Jones BS, Smith RZ, editors. *Introduction to the electronic age*, New York: E-Publishing Inc; 2009, p. 281–304.

Note shortened form for last page number. e.g., 51–9, and that for more than 6 authors the first 6 should be listed followed by 'et al.' For further details you are referred to 'Uniform Requirements for Manuscripts submitted to Biomedical Journals' (J Am Med Assoc 1997;277:927–34) (see also [http://www.nlm.nih.gov/bsd/uniform\\_requirements.html](http://www.nlm.nih.gov/bsd/uniform_requirements.html)).

### **AudioSlides**

The journal encourages authors to create an AudioSlides presentation with their published article. AudioSlides are brief, webinar-style presentations that are shown next to the online article on ScienceDirect. This gives authors the opportunity to summarize their research in their own words and to help readers understand what the paper is about. More information and examples are available at <http://www.elsevier.com/audioslides>. Authors of this journal will automatically receive an invitation e-mail to create an AudioSlides presentation after acceptance of their paper.

### **Submission checklist**

Please follow this link for a detailed list of the submission requirements and how to structure your article: [Check List for Authors](#).

It is hoped that this list will be useful during the final checking of an article prior to sending it to the journal's Editor for review. Please consult this Guide for Authors for further details of any item.

### **Ensure that the following items are present:**

One Author designated as corresponding Author:

- E-mail address
- Full postal address
- Telephone and fax numbers

All necessary files have been uploaded

- Keywords
- All figure captions
- All tables (including title, description, footnotes)

Further considerations

- Manuscript has been "spellchecked" and "grammar-checked"
- References are in the correct format for this journal
- All references mentioned in the Reference list are cited in the text, and vice versa
- Permission has been obtained for use of copyrighted material from other sources (including the Web)
- Color figures are clearly marked as being intended for color reproduction on the Web (free of charge) and in print or to be reproduced in color on the Web (free of charge) and in black-and-white in print
- If only color on the Web is required, black and white versions of the figures are also supplied for printing purposes

For any further information please visit our customer support site at [support.elsevier.com](http://support.elsevier.com).

## **AFTER ACCEPTANCE**

### **Use of the Digital Object Identifier**

The Digital Object Identifier (DOI) may be used to cite and link to electronic documents. The DOI consists of a unique alpha-numeric character string which is assigned to a document by the publisher upon the initial electronic publication. The assigned DOI never changes. Therefore, it is an ideal medium for citing a document, particularly 'Articles in press' because they have not yet received their full bibliographic information. Example of a correctly given DOI (in URL format; here an article in the journal *Physics Letters B*):

<http://dx.doi.org/10.1016/j.physletb.2010.09.059>

When you use a DOI to create links to documents on the web, the DOIs are guaranteed never to change.

### **Online proof correction**

Corresponding authors will receive an e-mail with a link to our online proofing system, allowing annotation and correction of proofs online. The environment is similar to MS Word: in addition to editing text, you can also comment on figures/tables and answer questions from the Copy Editor. Web-based proofing provides a faster and less error-prone process by allowing you to directly type your corrections, eliminating the potential introduction of errors.

If preferred, you can still choose to annotate and upload your edits on the PDF version. All instructions for proofing will be given in the e-mail we send to authors, including alternative methods to the online version and PDF.

We will do everything possible to get your article published quickly and accurately. Please use this proof only for checking the typesetting, editing, completeness and correctness of the text, tables and figures. Significant changes to the article as accepted for publication will only be considered at this stage with permission from the Editor. It is important to ensure that all corrections are sent back to us in one communication. Please check carefully before replying, as inclusion of any subsequent corrections cannot be guaranteed. Proofreading is solely your responsibility.

### **Offprints**

The corresponding author, at no cost, will be provided with a personalized link providing 50 days free access to the final published version of the article on [ScienceDirect](#). This link can also be used for sharing via email and social networks. For an extra charge, paper offprints can be ordered via the offprint order form which is sent once the article is accepted for publication. Both corresponding and co-authors may order offprints at any time via Elsevier's WebShop (<http://webshop.elsevier.com/myarticleservices/offprints>). Authors requiring printed copies of multiple articles may use Elsevier WebShop's 'Create Your Own Book' service to collate multiple articles within a single cover (<http://webshop.elsevier.com/myarticleservices/booklets>).

### **AUTHOR INQUIRIES**

You can track your submitted article at [http://help.elsevier.com/app/answers/detail/a\\_id/89/p/8045/](http://help.elsevier.com/app/answers/detail/a_id/89/p/8045/).
