FormChecker

EASY FORMULARY
MANAGEMENT

FormChecker is an easy-to-use formulary management and communication system designed specifically for hospitals.

FormChecker, which offers integrated drug information, helps your team and facility comply with Joint Commission regulations, follow pharmacy guidelines and reduce time spent on the management of formulary conversions. Changes are instantly available to physicians, nurses, and pharmacists through a web browser and/or in print.

How It Helps

Trusted by hundreds of facilities nationwide, FormChecker makes it easier and more affordable for hospitals and clinics to reduce costs, comply with The Joint Commission and implement sound, facility-wide pharmacy guidelines. FormChecker enables pharmacists to update formularies and issues relevant alerts and other useful information, all through a web browser.

MEET COMPLIANCE REQUIREMENTS
Comply with The Joint Commission's medication management guidelines.

REDUCE DRUG COSTS
Ensure that physicians and nurses follow up-to-date pharmacy guidelines.

SAVE STAFF TIME
Reduce the amount of time your staff spends managing formulary conversions.

EASY TO IMPLEMENT
Simple implementation and transition process.

MANAGE FORMULARIES
Load, create and maintain multiple formularies from a central location for your organization.

SHARE INFORMATION
Post guidelines, policies, drug alerts, and other important information.

ACCESS RELATED DRUG INFORMATION
Link directly from within FormChecker to drug monographs in Clinical Pharmacology powered by ClinicalKey®, recognized as a top performer in the 2017 Best in KLAS® report for clinical decision support – point of care clinical reference (feature available to subscribers of both products).

ELSEVIER

Why It's Better

COMMUNICATES POLICIES and makes easily accessible procedures that support safe medication prescribing, ordering and transcribing.

IDENTIFIES APPROPRIATE SELECTION OF MEDICATIONS available for use within the organization, including guidance on when a generic or brand product is required to be used.

COMMUNICATES AND IDENTIFIES SPECIAL PRECAUTIONS or procedures for ordering drugs with look-alike or sound-alike names.

HELPS TO MANAGE HIGH-RISK or high-alert medications by identifying and communicating processes for procuring, storing, ordering, transcribing, preparing, dispensing, administering, and/or monitoring.

LIMITS ACCESS to a set of approved medications.

MONITORS ORGANIZATIONAL REGULATIONS governing the prescribing, dispensing and administration of medications.

OPERATES ONLINE IN REAL-TIME to allow changes as they occur for an up-to-date formulary at the time of prescribing.

GIVES FORMULATION (active ingredients) of a combination product.

DISPLAYS DOSAGE FORM(S), STRENGTH(S), PACKAGING(S), AND SIZE(S) stocked by the pharmacy.

OFFERS GENERIC NAME of the primary active medication entity or product; combination products may be listed by generic, common, or trade names.

LISTS PHARMACY OPERATING PROCEDURES such as hours of service, prescription policies, pharmacy charging policies, prescription labeling and packaging practices, and medication distribution.

PROVIDES BRIEF DESCRIPTION OF THE P&T COMMITTEE, including its membership, responsibilities and operation.

OFFERS FORMULARY POLICIES AND PROCEDURES, including restrictions on medication use and procedures for adding a medication to a formulary.

The Gold Standard in Customer Service

The entire Elsevier team is committed to maximizing the positive impact our products have on your organization. It's service you should expect. It's service you deserve. And it's the kind of responsive, personalized service that sets the standard higher.
