Empower your researchers at every step

ScienceDirect helps researchers gain knowledge, generate more ideas and answer their most pressing questions in less time.

The new demands of research

Today’s researchers have broad, multidisciplinary workflows. To connect the dots and see the big picture, they need access to reliable interdisciplinary research using a wide range of content types.

Building knowledge should be seamless

ScienceDirect uniquely offers cross-links and advanced technology, enabling researchers to find relevant information at their point of need. The different content types work in harmony on ScienceDirect to deliver the best source of knowledge, no matter what research stage a user is at.

Major Reference Works

Provides foundational information that opens up a fundamental overview of the existing body of knowledge.

Journals

Brings new cutting-edge findings to your research.

eBooks / Monographs

Presents sustained arguments that broaden the sphere of investigation and open up new paths of inquiry.

Serials / Series and Handbooks

Offers a fresh and in-depth perspective on the current state of research that uses the latest scholarship.

ScienceDirect Topics

Topic pages surface relevant information to ensure researchers find what they need in their natural research workflow. Each topic page provides authoritative introductory overviews to help researchers uncover critical and contextual information.

Unlock the full power of ScienceDirect by adding different content types to your subscription. Visit elsevier.com/sciencedirect/books today.

*The greatest aspect of ScienceDirect is you can find all relevant information in one place. The interconnected approach really helps to get an overall idea about the whole topic.*
