

ScienceDirect Corporate Edition

Accelerate Research Results

Invest in anytime, anywhere access to interdisciplinary research that enables smarter, faster R&D. ScienceDirect combines authoritative, full-text scientific, technical and health publications with smart, intuitive functionality so that your users can stay informed in their fields, and can work more effectively and efficiently.

Make sure your users don't miss out on critical developments as they strive to bring innovations, products and technologies to market before the competition does, while increasing R&D productivity.

Enable ground breaking discoveries with ScienceDirect. ScienceDirect Corporate Edition puts the widest range of scientific, technical and health information at your researchers' fingertips. Corporations of all sizes and from every industry benefit from this expansive library of interdisciplinary research across 24 major subject categories. ScienceDirect allows your organization to avoid unnecessary spending, build intellectual property and mitigate risk around acquisitions and licensing.

WITH SCIENCEDIRECT CORPORATE EDITION, YOU WILL:

Base decisions on trusted, peer-reviewed information

The vast breadth and depth of publications ensures your users never miss crucial information, including interdisciplinary insights to apply toward linked advancements outside their primary discipline.

Find smart content and supplementary material

Content enrichments like Dynamic Image Search and Interactive Data Viewers delve into more than 15 million selections of embedded audio, video and dataset content, while graphical abstracts and quick linking let users extract and save what they need directly from the article page.

Stay informed on the latest scientific developments

Saved search queries and alert options notify users when new articles, journal issues or books are published.

Explore additional research paths

A selection of recommended articles reveals the research paths of other peer researchers who are looking at the same article, with embedded links to external datasets PANGAEA, Scopus and Reaxys.

Maximize your investment

Get the most from your ScienceDirect subscription: we provide online resources, including a Resource Library so you can promote ScienceDirect to your users.

“Our awareness of the fundamental findings reported by others permits us to build on their findings. Research is built by this process; we cannot afford to reinvent the wheel. So access to information is vital. It really is the lifeblood of any vibrant R&D organization.”

ELSEVIER

Spur Innovation. Improve Commercial Viability. Increase R&D Productivity. ScienceDirect enables your optimal research outcomes.

ScienceDirect combines the Elsevier universe of high-quality, trusted information into one easy-to-use platform, providing instant access to a world of science knowledge dating back to 1823.

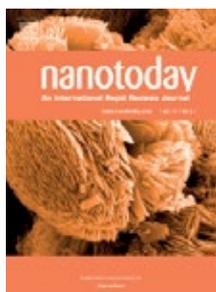

ScienceDirect Corporate Edition

Take advantage of our always-expanding collection of published research.

JOURNALS

Every year, Elsevier publishes more than 250,000 articles and adds hundreds of new journal titles to its catalog. ScienceDirect includes more than 3,800 journals, representing 612,000 journal issues.

- Trace innovations to their original sources with full-text access to authoritative titles dating back to Issue 1, Volume 1 where possible.
- Your users will stay current with advanced access to peer-reviewed articles accepted for publication.

- Boost discovery with highly cited titles such as *Progress in Polymer Science*, *Progress in Materials Science* and *Nano Today*.

BOOKS

More than 35,000 book titles enhance research and discovery.

Books

Search across a full range of scientific disciplines, including those published by renowned imprints, including Woodhead Publishing and Gulf Professional Publishing.

Book and Handbook Series

Trace important developments in scientific research spanning many years. For example, since 1955 *Methods in Enzymology* has produced 581 volumes with more than 40,000 chapters. In addition, 58 serial titles are available as well.

Major Reference Works

Build core knowledge in an area of expertise or gain cross-disciplinary, comparative perspectives in related or new areas using 162 subject-specific sources of authoritative information.

“ScienceDirect helps us to reach the most important evidence available, and that helps us to effectively approach solving the problem.”

ARDA GENC, PHD

Senior Research Scientist at FEI.

Over 250,000 publications on ScienceDirect are open access. For a complete list, visit:
