

❗ INFORMATION FOR POSTER PRESENTERS

Poster Panel Size

Please refer to this visualisation of the poster panels to be used during the conference. The display area allocated to each poster is 137cm (53.9 in) high x 96cm (37.8 in) wide - A0 sized portrait paper may be used. **Please ensure that your poster does not exceed this size.** It is recommended that you leave a margin of at least 7.5cm (3in) around the poster. When preparing your poster and considering how much of your display will be visible at eye-level, please bear in mind that panels will be mounted on stands.

Poster Panel Allocation

A numbered panel will be allocated for each poster (separate from the abstract number you have been assigned) and conference staff will be on hand to advise you of your poster panel number during the set-up time for your session.

Poster sessions will take place in the **Ground Floor Gallery**. Please ensure that you stand by your poster(s) during your session for discussion and questions.

Please see scheduled times below:

Poster Session	Presentation Date	Presentation Time	Poster Numbers	Pin Up	Take Down
1	Tuesday 18 June	17:10-19:10	P1.01, P1.02, P1.03 etc.	From 15:00 Monday 17 June	By 19:30 Tuesday 18 June
2	Wednesday 19 June	16:20-18:20	P2.01, P2.02, P2.03 etc.	From 08:30 Wednesday 19 June	By 13:00 Thursday 20 June

Fixings

Posters should be fixed to boards with reusable adhesive material (Bluetac/UHU patafix). The Conference Secretariat will have a supply of fixing materials available if required.

Social Media Information

On your poster board you will find a media permission card. Please alter this to reflect how you would like your poster to be treated by delegates. (The default option is NOT ok to share)

ICASS

3RD INTERNATIONAL CONFERENCE ON APPLIED SURFACE SCIENCE

17-20 June 2019

Pisa Palazzo dei Congressi, Pisa, Italy

GENERAL GUIDELINES FOR POSTER PRODUCTION

A poster should be self-contained and self-explanatory, allowing different viewers to proceed on their own while the author is free to supplement or discuss particular points raised in inquiry. Presentations should be kept simple and clear and a mixture of text and graphics is recommended. Remember that the viewer, not the author, as in the case of slide presentations, determines the time spent at each poster.

Poster Layout

Materials should be mounted on coloured poster paper or board. Use matt finish rather than glossy paper. Arrange materials in columns rather than rows. It is easier for viewers to scan a poster by moving along it rather than by zigzagging back and forth in front of it. An introduction should be placed at the upper left and a conclusion at the lower right. The abstract does not need to be presented.

Illustrations

Figures should be designed to be viewed from a distance and should use clear, visible graphics and large type. Each figure or table should have a heading of one or two lines. Additional essential information should be provided below in a legend. Photographs should have good contrast, sharp focus and, if necessary, an indication of scale.

Text

Minimise narrative. Use large type in short, separated paragraphs. Numbered or bulleted lists are effective ways to convey a series of points. Do not set entire paragraphs in uppercase or boldface type.

Titles and Fonts

Titles and captions should be short and easy to read, in a sans serif font for preference. Use large lettering as this means a number of people can read the poster from a distance without overcrowding. Remember to caption your poster with the abstract title, authors' names and affiliations.

**Headings should be a
minimum of
50 point size**

**Whereas, 25 point size
is suitable for text**
