THE OVERALL RANKING

- An overall score is created from SDG 17 and the three strongest SDGs for a university.
- Universities could submit to as many SDGs as they wished.
- Bibliometrics will always represent the same proportion of overall score, regardless of SDGs chosen.

17 + A + B + C

22 + 26 + 26 + 26 = 100
SDG 3 - GOOD HEALTH & WELL-BEING

- Research on health and well-being – 27%
- Number of students graduating in health professions – 34.6%
- Collaborations and health services – 38.4%

Data submission
• Make sure that your university is correctly identified in Scopus

• Explore the SDG queries on Mendeley: https://data.mendeley.com/datasets/9sxdykm8s4/3

• Work with your researchers to make relevance to SDGs clear
The data collection runs from September to November, followed by a period of validation. To submit your data for this year’s rankings, you will need to do the following:

1. **Nominate a Data Provider**
   This will be a contact from your institution who will be responsible for submitting institutional data.

2. **Login to the data collection portal**

EVALUATING EVIDENCE

How do we calculate the score for evidence?

*Water in the community* looks at evidence around the following activity:

- Does your university as a body cooperate with local, regional, national or global governments on water security?

The score is calculated as follows:

- **Statement**: 1 point
- **Evidence**: 1 point
- **Evidence is public**: 1 point

Evidence is evaluated for relevance:

- 1 point for specific
- 0.5 point for general
- 0 point for not relevant

Maximum possible 3pts
• Multiple evidence – We accept up to 3 pieces of evidence
• URLs are preferred type
• Uploadable types include .doc, .pdf, .xls, .gif, .jpeg, .png
• Video and Audio files are not accepted
SUBMITTING EVIDENCE: PUBLIC OR PRIVATE

• Public evidence gets additional credit

• Universities will be able to select private or public for each piece of evidence

• Accepted as public:
  • University websites that can be accessed by people outside your university network
  • Documents that can be found easily online
  • Google drive documents that are set as open
  • External websites

• Examples of confidential evidence:
  • Documents with sensitive information
  • Google drive documents set as private or only available for those with access to link

Evidence is evaluated for relevance:
- 1 point specific
- 0.5 point general
- 0 point not relevant
