Planning for Success

Elsevier’s Oncology special journals portfolio aims to serve academic and government institutions worldwide by providing access to best in-class high-quality, peer-reviewed research papers in the field of Oncology and cancer research.

All journal content is accessible via the ScienceDirect platform which ensures a seamless reading experience to support applied research and breakthrough innovations.

Below are some key reasons why you should consider adding one or more of these special Oncology titles to your institute’s portfolio:

**Curated Quality Content**
Allow students and faculty members to stay up to date with the latest research trends and ensure granular awareness of the innovative ideas in the field by adding these subscription titles to your collection.

**Showcase Research**
Increase the identity of your institute and visibility of your research publications by publishing in premium journals distributed to thousands of scholars worldwide.

**Ready to Access Research**
Ensure researchers and faculty at your institute have easy access to leading cutting-edge practical research in the field of cancer research and oncology to support their ongoing projects.

**Expertise & Collaboration**
Identify researchers and cross-sector partners to establish and advance collaborative and interdisciplinary research initiatives at your institute.

**Research Funding**
Identify relevant funding opportunities and improve collaborations with prestigious institutions.
