Get to know
Scopus

The Bibliographic Indexing Leader
Scopus is the largest abstract and citation database of peer-reviewed scholarly literature, making it a highly recommended resource for discovering the world of research.

High-quality Data
5,000+ Publishers

- **Serial Titles**
  - 22,800+ peer reviewed journals
  - 3,600+ open access titles
  - 280+ trade journals

- **Books**
  - 560+ book series
  - 150,000+ non-seral books

- **Conferences**
  - 100,000+ conference events
  - 8+ million conference papers

- **Serial Titles**
  - 69+ M records

- **Books**
  - 12+ M author profiles

- **Conferences**
  - 70,000+ affiliation profiles

Global Representation (number of titles)

- **North America**
  - 6,000+
  - 50% more than nearest competitor

- **Middle East & Africa**
  - 750+
  - 212% more than nearest competitor

- **Western Europe**
  - 11,000+
  - 69% more than nearest competitor

- **East Europe incl. Russia**
  - 1,400+
  - 168% more than nearest competitor

- **Latin America**
  - 700+
  - 168% more than nearest competitor

- **Asia Pacific**
  - 2,000+
  - 230% more than nearest competitor

- **Australia/New Zealand**
  - 300+
  - 206% more than nearest competitor

Historical Depth

- **1788**
  - Records back to

- **1970**
  - References are included on records back to

- **1970**
  - Scopus has recently added
  - 195 million references and now covers
  - 11.5 million records between 1970-1995

Expert Curation

- **There are 100,750** active scholarly titles
- **Of which 43,947** are peer-reviewed
- **Scopus indexes 22,800**

- **Titles on Scopus are rigorously reviewed and selected by an independent board of subject matter experts to include 52% of the world's peer-reviewed scholarly literature.**
