## 4th International Conference on Ionic Liquids in Separation and Purification Technology

8-11 September 2019 • Sitges, Spain

# Sponsorship and Exhibition Opportunities

### THE CONFERENCE

The aim of the 4th International Conference on Ionic Liquids in Separation and Purification Technology is to provide a forum for researchers in academia and industry to share and discuss their cutting edge results on the use of ionic liquids in separation applications. This meeting will build on the momentum from the previous ILSEPT meetings held in 2011, 2014 and 2017. As we see there is a growing interest in deep eutectic solvents, that by some people are seen as alternatives for ionic liquids - we decided for this 2019 edition of ILSEPT to include the subject in the scope of the conference.

The scientific programme will offer plenary lectures, submitted oral presentations and poster sessions. Outside the session lecture theatres, you will also find numerous exhibitors presenting their contributions.
