More than ever, researchers need state-of-the-art tools to fuel their next big discoveries. Your researchers need Scopus. The best abstract and citation database the world has to offer. By deep insights, a better research experience and coverage competitors do not match.

THE TOOLS TO SUCCEED

Scopus provides a more comprehensive and wider range of scholarly information, enabling me to get a broader insight into the area I am researching.
- Graduate Student, University of Hertfordshire, United Kingdom

With its unparalleled global scope, Scopus offers insights and coverage the competition does not. Scopus helps you see who’s doing what in research — and where — with greater accuracy than anyone else.

A WORLD OF KNOWLEDGE

The 4,500 trusted by universities & 150 research organizations

DATA DEMAND

From scholarly journals and abstracts to citations, give your researchers the ability to find what they need. Or, for deeper analysis, use Scopus APIs to integrate data onto your organization’s website.

BEST OF THE BEST

The information they need is a matter of records, articles, author profiles & more

ALL-INCLUSIVE ACCESS

Enjoy the world of research with one all-inclusive subscription — no packages, no add-ons. Competitors restrict access to content and backfiles, but Scopus provides a full range of content.

CUTTING EDGE RESEARCH

With content from leading institutions to emerging global research capitals, Scopus stays ahead of trends so that your institution remains at the forefront of research and innovation.

Access cutting-edge content & research during both to the 1800s

Scopus STANDS APART

If Scopus were not available, we would be almost blind to scientific progress.
- Principal Investigator, Universidad de Buenos Aires, Argentina

89% of researchers surveyed said Scopus is superior to competitors

86% say field coverage is broader and more accurate on Scopus

A WORLD OF KNOWLEDGE

With an unparalleled global scope, Scopus offers insights and citation database the world has to offer. Scopus helps you see what your colleagues are doing with greater accuracy than anyone else.

GOLD STANDARD

The 105 different countries 40 different languages 230% more global coverage than the competition

THE GOLD STANDARD

With all titles selected by an independent advisory board, content is curated for precise, transparent and meaningful content discovery.

BEST ACCESS

Your researchers need Scopus. The best abstract and citation database the world has to offer. Deep insights, a better research experience and coverage competitors do not match.

MORE THAN EVER

More than ever, researchers need state-of-the-art tools to fuel their next big discoveries.
