Journal of Financial Economics

The *Journal of Financial Economics* began a new section containing applied papers and case studies in 1989. This section provides a high-quality professional outlet for scholarly studies of actual cases, events or practice. Such phenomena provide a rich source of data that illustrate or challenge accepted theory and lead to new insights about the world. These studies currently have few professional outlets, and with this section The Journal of Financial Economics takes a leading role in encouraging such work.
