## Advances in Child Development and Behavior

ISSN: 0065-2407

Series Editor:

**Janette B. Benson**, Associate Dean, Morgridge College of Education and Associate Professor, Department of Psychology, University of Denver, USA

児童の発達に関する知見を分野横断的に収録する発達科学分野の金字塔。1964 年創刊。

Advances in Child Development and Behavior is intended to ease the task faced by researchers, instructors and students who are confronted by the vast amount of research and theoretical discussion in the field. The serial provides technical articles and a place for the publication of scholarly speculation. In these documented critical reviews, recent advances in the field are summarized and integrated, complexities are exposed and fresh viewpoints are offered.

### Volume 59: The Development of Social Essentialism

Serial Volume Editor: Marjorie Rhodes

eBook ISBN: 9780128200872 Hardcover ISBN: 978-0-12-820086-5

Expecting a gentle baby tiger to inevitably grow up to be ferocious, a young girl growing up in a household of boys to nevertheless prefer princesses to toy trucks, or that liberals and conservatives are fundamentally different kinds of people, all reflect a conceptual commitment to psychological essentialism. Psychological essentialism is a pervasive conceptual bias to think that some everyday categories reflect the real, underlying, natural structure of the world. Whereas essentialist thought can sometimes be useful, it is often problematic; particularly when people rely on essentialist thinking to understand groups of people, including those based on gender, race, ethnicity, or religion. This Volume will bring together diverse theoretical and methodological perspectives on how essentialist thinking about the social world develops in childhood and on the implications of these beliefs for children's social behavior and intergroup relations more generally.

## Volume 57: Child Development at the Intersection of Race and SES

Serial Editors: Daphne Henry, Portia Miller, Elizabeth Votruba-Drzal

eBook ISBN: 9780128176474 Hardcover ISBN: 9780128176467

Child Development at the intersection of Race and SES, Volume 57 in the Advances in Child Development and Behavior series, presents theoretical and empirical scholarship illuminating how race/ethnicity and socioeconomic status intersect to shape children's development and developmental contexts. Important chapters in this new release include the Implications of Intersecting Socioeconomic and Racial Identities for Academic Achievement and Well-being, The home environment of low-income Latino children: Challenges and opportunities, Profiles of race/ethnicity and socioeconomic status: Implications for ethnic/racial identity, discrimination and sleep, Youths' sociopolitical perceptions and mental health: Intersections between race, class, and gender, and much more.

Rather than focusing on the additive effects of race/ethnicity and SES, which is typical (and a limitation) in the developmental literature, the scholarship in this book considers how the factors and processes shaping the development of children of color can differ markedly across the socioeconomic continuum. This collection illustrates how applying an intersectional lens to developmental science can yield unique insights into the challenges confronting, and assets buoying, both minority and majority children's healthy development.
