

ClinicalKey®

Mobile access. Fast answers.

Download the ClinicalKey app

The ClinicalKey App provides clinical answers that match the speed of your busy workday – making it faster and easier to get support from the clinical reference source you trust.

3 Reasons to use the ClinicalKey App today

- 1 ClinicalKey Smart Search anytime to find fast answers.
- 2 Easy to discover, share and apply content anywhere.
- 3 Track your searches, save favourite content and more with a personal account.

Once you install the ClinicalKey app, you will need an account. Simply create a personal account or login using your personal credentials.

See below for login and support information

Login instructions

First “Activate” your personal profile on **ClinicalKey.com**:

1. Go to **ClinicalKey.com**, click ‘Login’ and look for ‘OpenAthens login’. Login with your Athens username and password.
2. Does your name appear in the menu in the top right corner of the screen? If so, you’re all set! If it says your Trust name and ‘Activate’, click on this.
3. Complete the form and press ‘Register’, you have now created a personal profile!

Continue to access the ClinicalKey app:

4. Open the ClinicalKey app, scroll down to ‘OpenAthens login’ and enter your Athens username and password to be connected. You can access ClinicalKey anytime, anywhere using your Athens details.

Login or register for 180 days remote access. Remote access will automatically be extended when you login from the hospital network.
