About Nespresso

The Nespresso story began with a simple idea: enable anyone to create the perfect cup of espresso coffee – just like a skilled barista. From its beginning in 1986, Nespresso has redefined and revolutionised the way millions of people enjoy their coffee. It has shaped the global coffee culture.

Our singular focus is on delivering highest quality coffees and ultimate coffee experiences to our consumers cup after cup. The entire Nespresso system – the interaction of the original Nespresso aluminium capsule with the genuine Nespresso machine – is designed to ensure the consistent quality that has made Nespresso the reference in the portioned coffee sector and one of the fastest growing global food and beverage brands.

Our Unique Business Model allows us to guarantee quality at every stage of the sourcing, production and sale of our coffees, and to maintain a direct relationship with our consumers.

Every Nespresso capsule sold in the world is produced in one of our two state-of-the-art production centres in Switzerland.

21st June 2015
University of Aveiro, Portugal

Nespresso invites you to the 2nd Coffee Conversation Symposium

This symposium is an open debate between world renowned scientists and industry experts and is dedicated to value creation from the bean to the cup.

All participants of the Cocotea conference are welcome to join the symposium.

For more information about the symposium please contact britta.folmer@nespresso.com
