Tuberculosis

authors.elsevier.com/journal/tube

You can now submit your paper online to Tuberculosis via the online submission and editorial system from Elsevier. It is fast, efficient and provides step-by-step instructions on how to submit your paper.

The online submission and editorial system provides the following benefits:

Easily accessible anywhere in the world
- You can login to submit your paper or revisions wherever you have access to the Internet.

Disks and hard copies are no longer required
- Online submission provides automatic conversion of source files to one PDF file - a stable document that is guaranteed to look the same on any computer worldwide.

Speeds up the peer-review and publication process
- Provides online submission for authors, which in turn provides a faster, more efficient seamless link from submission through the editorial and peer-review process, right through to publication.

Track your paper
- All authors have their own homepage on the online submission and editorial system where they can view the status of their paper during the review process.
- Once your paper is accepted for publication you can track it through the production process via the Author Gateway. We will send you a unique reference number to activate the tracking facility. Registered users of the Author Gateway can view tracking information through their personalised homepage.

Your data is secure
- Data is held on our secure, central servers that are regularly backed up, so there is no need to worry about loss of data.

For further information and to submit your paper online, visit the journal page in the Author Gateway and follow the link for Online Submission. If you have not submitted online to this journal before you will be required to register. If you are a returning user simply login and begin your submission.
