Abstract

Your manuscript including figures should be submitted in pdf through EVISE

In addition to the pdf of the manuscript you must supply the highlights a letter to the editor and the classification matches that should closely correspond to the Keywords.

Keywords: keyword1; keyword2; keyword3; etc.

1. Introduction

The introduction section may include figures with figure captions either in the text or at the end after the references. It is preferable to include the figures at end after the references.

2. Other sections

The sections may include figures with figure captions either in the text of the section or at the end after the references

2.1. *with subsection 1*

2.2. *and subsection 2 etc.*

...

*Corresponding author.

Give full affiliation and E-mail address: firstAuthor@somewhere.edu

Preprint submitted to Aerospace Science and Technology (AESCTE)

February 22, 2018

3. and other sections

...

4. Results

4.1. Results 1

4.2. Results 2

5. Conclusions

References

[1] Use the reference style of the papers that are printed in the journal example of a book and a journal paper citation are given below
