

Pediatrics and Neonatology

CONSENT FORM FOR PUBLICATION OF PHOTOGRAPHS/INFORMATION OF IDENTIFIABLE PATIENTS

Articles where human subjects can be identified in descriptions, photographs or pedigrees must be accompanied by a signed statement of informed consent to publish (in print and online) the descriptions, photographs and pedigrees from each subject who can be identified.

To be completed by the corresponding author:

Description of photograph or information relating to the patient: _____

Name of the author submitting the material: _____

Name of the corresponding author: _____

To be completed by the patient:

I give my consent for all or any part of the material described above to appear in *Pediatrics and Neonatology* ("the Journal") and any derivative work or product relating to the Journal in any form or medium.

I understand that:

- my name will not be published with the material and the Journal will endeavor to maintain my anonymity. I understand, however, that it is possible that someone may recognize me from the image and/or accompanying text;
- the use of material relating to me may include, without limitation, publication in the printed and electronic editions of the Journal, on websites, in sublicensed or reprinted editions (including foreign-language editions), and in other derivative works or products;
- once signed, I cannot revoke this consent form.

Patient's signature: _____ Date: _____

Patient's printed name: _____

Patient's address: _____

If you are not the patient, what is your relationship to the patient? _____

Witness's signature: _____ Date: _____

Witness's printed name: _____
