DESCRIPTION

The journal *Revue de Micropaléontologie* publishes original articles with international interest concerning all fields of micropalaeontology. The journal encourages the publication of articles in which data derived from microfossil assemblages coupled (or not) to the chemical composition of their walls are used to refine stratigraphical and paleoenvironmental issues along the past geological scale.

AUDIENCE

Micropaleontologists, Stratigraphers, Palaeoenvironmentalists, Palaeobiologists, Palaeoceanographers, Sedimentologists, Oil Company Researchers

ABSTRACTING AND INDEXING

GeoAbstracts and International Development Abstracts
Scopus
Research4Life (Hinari)

Zoological Record

EDITORIAL BOARD

*Editor-in-Chief*
Frédérique Eynaud, Université de Bordeaux, France
Associate Editor
Eric Armynot du Châtelet, France
Sylvie Crasquin, France
Špela Goričan, Slovenia
Oscar Romero, Germany
Nicolas Thibault, Denmark
Maria Triantaphyllou, Greece
Marco Vecoli, Saudi Arabia

Editorial Board Members
Demir Altiner, Middle East Technical University (METU), Turkey
Paulo Alves de Souza, Federal University of Rio Grande do Sul, Brazil
Maria-Angela Bassetti, Université de Perpignan Via Domitia (UPVD), France
Anne de Vernal, University of Quebec, Canada
Gerson Fauth, Unisinos University, Brazil
Marie-Béatrice Forel, National Natural History Museum, France
Fabrizio Frontalini, Università degli Studi di Urbino, Italy
Jérémie Gaillot, Total, France
Zhimin Jian, Tongji University, China
Michael Kaminski, King Fahd Univ., Saudi Arabia
Xulong Lai, China University of Geosciences, China
R. Mark Leckie, University of Massachusetts, USA
Atsushi Matsuoka, Niigata University, Japan
Kenji M. Matsuzaki, The University of Tokyo, Japan
Meryem Mojtahid, Université d'Angers, France
Abdel-Mohsen Morsi, Ain Shams University, Egypt
Paula Noble, University of Nevada at Reno, USA
Vincent Perrier, University of Lyon 1, France
Mathieu Richaud, California State University, USA
Emilia Salgueiro, Instituto Português do Mar e da Atmosfera, I.P. (IPMA, I.P.)
Francesca Sangiorgi, Universiteit Utrecht, Netherlands

Honorary Editor
T. Danelian, Université Lille 1, Lille, France
INTRODUCTION
All manuscripts are written in English. The first page contains the title, the name and complete address of all authors. A corresponding author needs to be indicated, including his (her) e-mail address. The title should be short, precise and provided in both English and French.

The abstract should also be provided in both English and French. It should not exceed 500 words and should be concise and informative containing methods, results and conclusions.

A maximum of 6 key words (in both English and French) should follow the abstract.

The text should be written with double spaced lines, 12 point characters and large margins. Please, ensure the text of your paper has consecutive (continuous) LINE numbering. Please also ensure to add PAGE numbers to the source file- this is an essential peer review requirement.

Chapters are numbered hierarchically (e.g. 1, 1.1, 1.2, 1.2.1). Foot notes are not allowed. The decimal system has to be used. Unit symbols should not have a full stop or a plural ending.

Authors should follow the Codes of Zoological and Botanical Nomenclature. Names of genera and species are printed in italics, for example:

Class FORAMINIFERIDA Eichwald, 1830
Order ROTALIACEA Ehrenberg, 1839
Family NUMMULITIDAE De Blainville, 1825
Genus Heterostegina d'Orbigny, 1826
Heterostegina papyracea Seguenza, 1880

If a new species is described in the article, the type specimen has to be designated clearly and the place of its curation to be indicated. The abbreviations for new taxa are nov. gen., nov. sp. etc. Synonymy lists may be shortened to essential references. Numbers of figures or plates are quoted in arabic numbers within the synonymy list even if originally given in roman numbers, e.g.:

1880 Heterostegina papyracea nov.sp. - Seguenza, p.90, pl.9, fig.4.
1999 Heterostegina papyracea Seguenza - Papazzoni et Sirotti, p.7, pl.1, fig.1-6.

COPYRIGHT
The signed copyright form transfers the copyright to the editor.

ELECTRONIC_ARTWORK
The following formats are accepted:
Text - Microsoft Word for Windows or RTF
Figures - TIFF, JPEG, PDF, EPS (high resolution and not compressed)

ILLUSTRATIONS
Every figure and table should be printed on a separate sheet of paper and marked with its number and author. Drawings, diagrams and photos are numbered as figures. They should be 164 mm or 78 mm in width and maximum 220 mm in height. The required space for figures should be economised by figure structure and planning. All figures should have an excellent quality and reproducibility (a resolution of at least 300 ppi). Leaflets are not allowed.

Hand drawings should be done with ink on good quality cardboard. Laser or ink prints of high quality (high definition) are possible also.

Photos should be clear, rich in contrast and on glossy paper. Avoid brightness values too white, too black or grey shades without enough contrast. Mounted photos within a plate or figure should have a brightness and contrast similar for easy reproduction. Mounted photos cover the whole rectangle and display even narrow spaces between. A white or black background is possible. The numbering of mounted figures is given with sans serif arabic numbers (Helvetica or Arial of 12 points) from left to right and up to down. Photo prints can only be accepted on photo paper and in high quality. Electronic images are accepted also. Scanning artefacts or visible pixels are to be avoided. A simple scale bar or enlargement statement has to accompany every figure as e.g., maps, logs and photos of objects. All numbers and letters are clear and not smaller than 2 mm. Frames around figures as well as characters, figures, tables or diagrams from a type writer are not allowed. Every figure or plate has a complete and informative caption in English. They are printed on separate pages. Every figure possesses a reference within the text. Colour figures are possible if paid by the authors.

REFERENCES
Only references quoted in the text may be listed in this part of the manuscript. The order of references is first alphabetically by author and then chronologically, e.g.:
The following formatting system has to be adopted:

**Articles in journals**

**Books**

**Chapter in a book or edited books**

**Reports, files, abstracts**

**Theses**

If a reference is translated or transliterated the original language or translation is given in brackets, e.g.:

**PROOFS**

Corresponding authors will receive an e-mail with a link to our online proofing system, allowing annotation and correction of proofs online. The environment is similar to MS Word: in addition to editing text, you can also comment on figures/tables and answer questions from the Copy Editor. Web-based proofing provides a faster and less error-prone process by allowing you to directly type your corrections, eliminating the potential introduction of errors.

If preferred, you can still choose to annotate and upload your edits on the PDF version. All instructions for proofing will be given in the e-mail we send to authors, including alternative methods to the online version and PDF.

Please use this proof only for checking the typesetting, editing, completeness and correctness of the text, tables and figures. Significant changes to the article as accepted for publication will only be considered at this stage with permission from the Editor.
